

# CPE Host Club Equipment List

Effective January 1, 2011

This form must be sent to each judge, course reviewer, for each trial. The course reviewer will be listed in the trial approval email from CPE, sent to the trial chairperson and trial secretary upon receipt and approval of the trial application.

|   |  |
|---|--|
| Host Club:                                    | Trial Dates:   |
| Ring Dimensions:                              | You must submit a CRCD or 10'x10' grid to the course reviewer and judge(s) with this equipment list. |
| Any additional details to know for designing? |  |
|   |  |

## Contacts

Enter the number of pieces of equipment that are available. Leave it blank if none. One form per ring must be filled out. Put YES or NO in the slats column for the Dog Walk and Teeter Totter. Indicate surface type for each piece of equipment.

|                                      |  |        |   |   |
|--------------------------------------|--|--------|---|---|
| Indicate yes or no to the following: |  |        |   |   |
|                                      | Can an open tunnel fit lengthwise under the Aframe?  |        |   |   |
|                                      | Can an open tunnel fit under the center plank of the Dog Walk as a half circle?                |        |   |   |
|                                      | If no to the above, can one side of an open tunnel fit under the center plank of the Dog Walk? |        |   |   |
|                                      | Can one side of an open tunnel fit under either end plank of the Dog Walk?                     |        |   |   |
|                                      | <b>Dog Walk 8' planks</b>  | Slats: | Actual Plank Width -                    | Flat Paint w/texture<br>Rubber granules |
|                                      | <b>Dog Walk 12' planks</b>   | Slats: | Actual Plank Width -                    | Flat Paint w/texture<br>Rubber granules |
|                                      | <b>Teeter Totter 12' planks</b>  | Slats: | Actual Plank Width -                    | Flat Paint w/texture<br>Rubber granules |
|                                      | <b>A-Frame (w/ slats) 8' sides</b>   |        | Flat Paint w/texture<br>Rubber granules | <b>Table – heights 8" &amp; 16"</b>     |
|                                      | <b>A-Frame (w/ slats) 9' sides</b>   |        | Flat Paint w/texture<br>Rubber granules |   |

Rubber granules: Slats are optional on dog walk and teeter. Slats are required on the aframe. ONLY when rubber granules are used, slats do not need to be in the contact zones on the aframe, they must be above the contact zone to the top of the apex (or plank on dog walk/teeter). See [www.cleanrun.com](http://www.cleanrun.com) for the "wet apply" rubber granule method recommended by CPE. Full details in the CPE rulebook – obstacle specifications, also for the interior non-slip surface for the chute barrel.

|--|---|---|---|
| <b>Tire</b><br>24"<br>aperture   | Type of frame<br>for Tire<br>PVC / Metal / Wood | Are there angles<br>braces from frame<br>to the legs? | If there are braces, list<br>the material used if<br>different from the frame |
| <b>Safety Tire</b> from <a href="http://www.dog-equipment.com">www.dog-equipment.com</a> or <a href="http://www.affordableagility.com">www.affordableagility.com</a> is available for this trial |   |   |   |

|                    |                     |                     |                           |
|--------------------|---------------------|---------------------|---------------------------|
| <b>Weave Poles</b> | 3 poles per section | 5 poles per section | Center to Center spacing: |
| Base mounted       | 4 poles per section | 6 poles per section |                           |

24" center to center required effective July 1, 2011 or earlier

Stick in the ground weave poles can only be used as an emergency substitution of equipment at an outdoor show.

|                   |                          |                        |
|-------------------|--------------------------|------------------------|
| <b>Broad Jump</b> | Hogback (bi-directional) | One-Way direction only |
|-------------------|--------------------------|------------------------|

## JUMPS – width of wings not to exceed 30" or the height of the standard

| Type of Jump | # of wingless | # of winged | Length in feet or inches of poles or panels | Width of Wings in inches |
|--------------|---------------|-------------|---|--------------------------|
| Bar          |               |             |   |                          |
| Panel        |               |             |   |                          |
| Double       |               |             |   |                          |
| Triple       |               |             |   |                          |

## Tunnels – open and closed

|  |     |     |     |     |
|--|-----|-----|-----|-----|
| Open Tunnels<br>24" diameter             | 10' | 12' | 15' | 20' |
| Chute Barrel 22" – 24" diameter          |     |     |     |     |
| Chute cloth - not to exceed 8' in length |     |     |     |     |

## Measuring devices

|  |
|--|
| Measuring device – actual measurements   |
| Wickets:<br>measurements of 8", 12", 16", 20", 24"<br>to the bottom of the top cross bar |
| Is there a measuring wheel available for the judge?                                      |
